

Elementary Forge Practice; A Text-Book for Technical and Vocational Schools

By Robert Henry Harcourt

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1920 edition. Excerpt: . y2 inches in diameter, as smaller stock bends while the pieces are being driven together in the fire. The Jump Weld is one ordinarily used by shipsmiths on marine or ship work. Its applications are numerous, but its main principle is the joining of one end of round, square, or rectangular stock to some point on the side of a piece of stock of the same or of a different size. In making the jump, shown at A in Fig. 40, the end of the stock is brought to the welding heat and hammered on the sides, to prevent it from bursting while scarfing it. If the piece is a short one, the scarfing may be done by standing it on end on the anvil and hammering the hot end so as to form a flange, similar to the one shown at A. If...
