

The Solar System: A Breathtaking Tour of the Universe and How it Works with More Than 300 Incredible Photographs and Illustrations

By Alexander Gordon Smith

Anness Publishing. Hardback. Book Condition: new. BRAND NEW, The Solar System: A Breathtaking Tour of the Universe and How it Works with More Than 300 Incredible Photographs and Illustrations, Alexander Gordon Smith, This stunning survey explores our own star system and its place in our galaxy and the universe itself. It offers in-depth coverage of all the planets, as well as the Sun, the Moon, asteroids, comets and meteoroids. The book also looks further into the heavens, to examine black holes, other solar systems and distant galaxies, and speculates about the future of space travel. Featuring 300 amazing photographs and detailed illustrations take you on whirlwind tour of the cosmos, while the text provides a wealth of essential information for young astronomers everywhere. An additional reference section contains fact charts, star maps, a glossary of terms and a detailed index. The planets and countless other objects revolving around our Sun make up the Solar System. As scientists discover more about these heavenly bodies, including our own planet, Earth, they are also finding further mysteries and extraordinary space puzzles. Our Solar System is but one of billions in the vastness of our galaxy, the Milky Way, and the universe itself contains...
