In Germany English is already taught in elementary school to give the pupils a basic knowledge concerning the English language. The whole society is involved into a constant change of working and living habits. Changes occur in industry, school and prerequisites to find a job as well as in family life and personal relationships. This development has got influences on every part of human life and so as well on the sector of education. As a result of this, teachers at school have to adjust their teaching methods to the changing conditions of the environment. As a society needs an atmosphere which favours change, it is necessary to be willing to change oneself. Not to change would result in keeping the faults which have been made in the past. You need to take the risk of change if the public weal should grow. Change should not only be pretended or take only place at the surface but also on the basis of the assumptions concerning learning. During the years several methods have been developed to make learning a new and foreign language more and more interesting, easy and efficient. In the beginning the most frequent methods were those of pattern drills, grammar exercise as well as the method of translation. These techniques are still used in some kind of schools and in some...
