Cambridge Library Collection, United Kingdom, 2011. Paperback. Book Condition: New. 228 x 154 mm. Language: German Brand New Book ***** Print on Demand *****.The Ssabians were a Middle Eastern community (or possibly two separate communities) mentioned in the Qur'an and early Islamic writings, and categorised variously as people of the book or heathens. They are documented almost exclusively in Arabic sources, and this rare 1856 book, published in German in St Petersburg, remains an invaluable reference work about them, and includes substantial extracts from the early sources. The book aroused the interest of the theosophists in the 1890s owing to its portrayal of a mysterious and secretive Syriac- or Aramaic-speaking pagan sect, accomplished in astronomy and medicine, that functioned as an intellectual intermediary between the Greek and Arabic worlds. Volume 2 introduces the main sources and presents selections from forty-five texts, with variant readings, German translations and detailed notes. They include a wide variety of genres, ranging from religion, philosophy, literature and autobiography to historical, geographical, legal and lexicographic works.
