Each figure seems to have its name, although often the constructor cannot give the name of a figure he has made. Our usual procedure was to take down names in each language, whenever a figure was encountered; where possible new figures were photographed; prints were promptly made and a set of them was always carried for the identification of old and the discovery of new designs. The player often has less difficulty in naming a figure which he has upon his fingers, than in constructing it from the repeated name. This at first seems strange but is really natural. It was inconvenient for our work, however; sometimes it was impossible to photograph a new figure at once, though quite easy to take down its name; later when we were ready to photograph, the player might not be able from the name to recall...

Reviews

Basically no terms to clarify. It is actually written in basic terms rather than confusing. I found out this ebook from my dad and I suggested this book to find out.
